NEW RIMA-I TECHNICAL BULLETIN ON OXIDATION AVAILABLE

Enclosed is the latest Technical Bulletin produced by the Reflective Insulation Manufacturers Association International (RIMA-I) entitled "***The Oxidation of Aluminum Surfaces***". This is the fifth in an ongoing series of technical bulletins the association is producing which address specific product applications regarding the reflective insulation and radiant barrier industries. We invite you to share this information with your associates and/or readership and to contact us with any additional information or materials you may require.

You can find all of our technical bulletins on our website at www.rimainternational.org. There you will also find our handbook "*Understanding and Using Reflective Insulation, Radiant Barriers and Interior Radiation Control Coatings*" as well as information on the association, our officers and member lists and upcoming association events and activities.

We invite you to visit our website and to contact us for specific industry information and/or article development. Thank you -

The Reflective Insulation Manufacturer's Association International is a group of dedicated people working together to propagate the knowledge and use of reflective insulations and radiant barriers. RIMA-I has been the major force in establishing fair ASTM standards for testing and installation procedures. RIMA-I welcomes all who are interested in promoting and directing the growth of the industry. For more information about membership or the industry, please contact Executive Director Mary Edmondson at 800/279-4123.
